### REASONS FOR ALLOWANCE

**Claims 1-48** are allowed.

1. The following is an examiner's statement of reasons for allowance: Prior art fails to teach or fairly suggest a liquid dispensing device comprising a tray for holding a liquid at a relatively constant level and a liquid container containing a liquid having an opening and positioned upside down in the tray with the opening defining a vertical position approximately equal to or below the relatively constant tray liquid level such that atmospheric pressure on the liquid the tray and vacuum inside the container prevents liquid from draining from the container except when the liquid level in the tray drops to a level approximately equal to or below to the vertical position of the opening of the container. The dispensing device further comprises a syringe for drawing liquid from the tray.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
